## Cordless Finish 41 15 Gauge Cordless Finish & Trim Nailer

**"Perfect For Punch List  
To All-Day Productivity."**

### Tool Specifications:

Item Code: 980002N  
Weight: 7.7 lbs. (3.5 kg)  
Height: 13 1/8" (333 mm)  
Length: 12 7/8" (327 mm)  
Nail Capacity: 110  
Includes two powerful batteries, one hour charger and case

HIGH-SPEED drive system  
UP TO **4** NAILS PER CHARGE

Proven **DURABILITY**  
**2 YEAR**  
WARRANTY

Two **POWERFUL** batteries  
**DRIVE**  
UP TO 600  
NAILS PER CHARGE!

Cordless convenience, no set-up, just grab and go. Patented robust electro-mechanical drive system for dependable and reliable drives. Powerful batteries provides up to 60 drives per charge. Patented dual drive control, sequential or contact actuation lets you work the way you want to. No exhaust blowing dust in your face. Nicely balanced and easy to use, the Cordless Finish 41 drives 15 gauge nails from 1 1/4" – 2 1/2". All this is backed by a new durable drive system, adjustable depth-of-drive control, EZ-Clear™ latch, and a no-mar pad for perfect finishing.

### Applications:

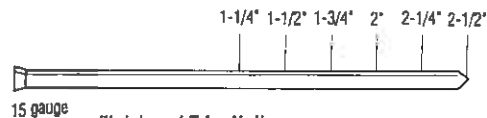

Crown molding, baseboards, door and window casings, decorative trim and cabinet face frames and other finish and trim applications where operator convenience and aesthetics are important.

### Features and Benefits:

- No compressor set-up
- New durable drive system provides plenty of power and speed
- Drives up to 600 nails per charge
- No expensive and smelly fuel cells – save over \$300 per year
- Includes two powerful batteries, one hour charger and case
- Switchable drive control to match how you want to work
- Adjustable depth-of-drive control
- EZ-Clear™ latch – to clear jams fast
- No-Mar pad for perfect finishing and belt drive for quiet operation
- Drives true 15 Ga. Finish Nails
- UL approved for safe use

### Fastener Specifications:

Gauge: 15  
Fastener Range: 1 1/4" - 2 1/2"  
Finish: Bright Basic, Galvanized & Stainless Steel

1-3/4"	4M/Ctn	DA19EABN
2"	4M/Ctn	DA21EABN
2-1/2"	3M/Ctn	DA25EAB

#### Stainless Steel

2"	2M/Ctn	DA21EGBN
2-1/2"	1.2M/Ctn	DA25EGB

**Sequential Actuation Trigger** (also known as restrictive trigger or trigger fire) operates in the following sequence - depress the safety element at the nose of tool against the work surface then pull the trigger. After each fastener is driven, release the trigger and lift the tool off the work surface before starting the sequence again. This trigger is recommended and acceptable for most applications.

**Contact Actuation Trigger** (also known as dual action, bounce or bottom fire) operates in the following sequence - pull the trigger first and keep the trigger pulled while moving the tool along the work surface with a bouncing motion, depressing the safety element at the nose of the tool against the work surface where the fastener is to be driven. This trigger is recommended for use by trained professionals only in high production or volume applications
