

Senco DuraSpin® DS205-14v Introduction

Senco is pleased to announce the introduction of a new Cordless Collated Screwdriver, **effective August 2, 2004**. This new tool, **DS205-14v**, is an addition to the customer-preferred line of DuraSpin® screw systems. The DS205-14v replaces the popular DS162-14v, and offers additional features. The combination of collated DuraSpin screws and the new high speed DS205-14v allows users to hang a 4' x 12' sheet of drywall in under one minute!

The following are the features and benefits of the new **DS205-14v**:

- Reverse switch to back out driven screws
- Dynamic braking to conserve brush wear
- Drives **1" to 2"** screws (#6 or #7 shanks)
- **4,000 RPM** high torque motor
- Patented clutch design is long lasting and durable
- Cordless power with two 14.4 volt slide batteries included
- Drives 900-1000 1-1/4" drywall screws on a single charge
- One hour charger
- Easy depth of drive adjustment for precise countersink
- Adjustable nose piece with dimpling contour for different screw lengths
- Belt hook
- One year warranty
- Each **DS205-14v** comes complete with rugged carrying case, spare bit tips, bit holders, **and for a limited time, a free multi-blade utility knife and \$10 rebate on fastener purchase.**

**Perfect For
Drywall**

Free Utility

Targeted applications include: Drywall to wood and drywall to steel
