

SN-1 Finish Nailer

first power finish nailer in the industry with fully automatic driving and a cabinet maker's touch

Remarkably light in weight . . .
3 $\frac{7}{8}$ lbs. of perfect balance.
Drives 1"—1 $\frac{1}{2}$ " 15 ga. finish nails.

Benefits

Adjustable driving speeds up to 12 nails per sec. with one trigger squeeze. Gets in and out of tight spots easily with its tilted, 30° magazine, small $\frac{1}{2}$ " guide body lip. Expert craftsmanship and full production speed quickly attained by your least experienced employee.

Applications

The SN-1 is ideal for nailable wood and plastic products assembly and installation operations in furniture and cabinet making, picture frame assembly, product display cases. Also excellent for light trim, molding, paneling and framing applications in manufactured and mobile homes and on-site building construction.
