SENCO Expands Family of FinishPro Combo Kits

Visit SENCO's booth at the Remodeler's Show (Booth #543) to see the new FinishPro 32 Combo Kit in person.

(CINCINNATI) – SENCO's original FinishPro Combo Kits were designed to provide outstanding performance and value for professionals and heavy do-it-yourselfers. Based on the success of those kits and popular demand, the pneumatic tool pioneer is now reaching out to finish and trim carpenters with a kit built around one of its most popular finish nailers. The SENCO FinishPro 32 Combo Kit offers 16-gauge versatility in a value-packed package. The heart of the kit is the SENCO PC0968 portable compressor. Lightweight and convenient, the rugged compressor packs plenty of punch – 1-1/2 HP of electric power, 2-1/2 gallons of air capacity in twin-stacked tanks and 2.2 CFM at 90 psi. The 38-pound compressor is light enough to take anywhere, and, thanks to its oil-less design, it is also a breeze to maintain. “The FinishPro 32 Combo Kit is SENCO's most versatile kit to date,” says Randy Kleeman, SENCO product manager. “Built around a great 16-gauge finish nailer, this kit will enable users to take it right out of the box and tackle dozens of projects.”

The sturdy FinishPro 32 finish and trim nailer is the ideal do-it-all tool. The compact and powerful nailer is perfect for a variety of applications, including interior trim, cabinets, chair

rails, crown molding, baseboards, book shelves and exterior trim. The FinishPro 32 features adjustable depth-of-drive, adjustable exhaust, no-mar pad and rear bumper to protect work surfaces, padded grip for comfort and control and a built-in belt hook for convenience. The FinishPro 32 drives 16 gauge nails from 1-1/4" to 2-1/2" in length.

Part of SENCO's ProSeries line of pneumatic tools, the FinishPro 32 includes sturdy pro-quality castings and internals, ergonomic design and more. All SENCO ProSeries tools are covered by a full one-year warranty from SENCO.

The kit also includes 25 feet of air hose, tool oil, safety glasses, a pack of fasteners, a rugged carrying case for the nailer and all necessary fittings and wrenches. The kits are available exclusively through authorized SENCO dealers nationwide.

Based in Cincinnati, SENCO is a leading manufacturer of power fastening systems; air and battery power nailers and staplers, screw systems and the fasteners they drive. SENCO tools are used in a variety of industries, including home construction and remodeling, woodworking, cabinet and furniture assembly, manufactured housing and industrial packaging.
