New SENCO RoofPro Nailers Offer Perfect Mix of Performance, Light Weight and Durability

Visit SENCO's booth at IBS (Booth #4309) to see the new RoofPro Tools in person.

(CINCINNATI) – Pneumatic tool pioneer SENCO is leaping boldly forward into the roofing installation market with the introduction of two state-of-the-art tools. The 11-gauge pneumatic coil nailers represent a smart combination of rugged construction, light weight and advanced design that will make them quick jobsite favorites.

Leading the way is the SENCO RoofPro 455XP, the latest addition to SENCO's top-of-the-line XtremePro series of tools. The nailer is the ideal choice for asphalt and fiberglass shingle nailing, for both new roofs and reroofing projects. The RoofPro 455XP is also great for attaching tar paper, metal drip edges, insulation board and, with a special attachment, vinyl and aluminum siding. Featuring a tough aluminum main housing and cap to survive punishing environments, the 5.4 pound RoofPro 455XP is still light enough for one-handed operation. The tool-free adjustable depth-of-drive feature ensures consistent and controllable nail set. And the new adjustable 120-nail canister accommodates an entire range of true round-head smooth shank roofing nails (3/4" – 1-3/4"). Steel wearplates reduce shingle abrasion, while the EZ-Clear latch makes fastener removal a breeze. Additional features include a durable molded comfort grip, tool-free adjustable exhaust and an adjustable shingle guide. The RoofPro 455XP is covered by a full one-year manufacturer's warranty.

RoofPro Coil Nailers
2-2-2-2

For the more value-minded tool buyer, SENCO's ProSeries RoofPro 450 offers a similar array of features and benefits but at a lower cost. The RoofPro 450 still weighs in at a respectable 5.9 pounds

and features sturdy aluminum main housing and cap construction.

The ProSeries tool also includes an adjustable nail canister, steel wearplates, a durable comfort grip and tool-free adjustable depth-of-drive. Ideal applications include asphalt and fiberglass shingle nailing and attaching tar paper, metal drip edges and insulation board. Nail capacity and size ranges are the same for both tools. (NOTE: Siding installation attachment available only for the RoofPro 455XP.) The RoofPro 450 is covered by a one-year factory warranty.

Both tools will be available from SENCO dealers nationwide beginning spring 2004. For a complete listing of dealers and complete tool specifications, visit www.senco.com.

Based in Cincinnati, SENCO is a leading manufacturer of power fastening systems; air and battery power nailers and staplers, screw systems and the fasteners they drive. SENCO tools are used in a variety of industries, including home construction and remodeling, woodworking, cabinet and furniture assembly, manufactured housing and industrial packaging. To learn more about SENCO, call 1-800-543-4596 or visit SENCO online at www.senco.com.
