SCREW SPECIFICATIONS

Screw Gauge: #8
Length: 1 3/4”
Recess: #2 Square
Head: Flat
Point: Type 17
Thread Type: Coarse
Finish: Yellow Zinc

APPLICATIONS
• Interior wood to wood
• Subflooring
• Framing

FEATURES AND BENEFITS
• Square recess provides excellent torque transmission for high torque applications
• Flat head provides strong holding power for most wood applications
• Coarse threads are ideal for use in wood connections
• Type 17 point is designed to cut quickly in dense materials.
• Yellow zinc finish

INSTALLATION GUIDELINES
• Use a screwdriver with a precise depth-sensitive clutch and speeds of up to 5000 RPM
• Overdriving may cause a weak connection or thread strip-out of the wood
• The drive is finished when the screw is below the work surface
