

SCREW SPECIFICATIONS

Screw Gauge	#6
Length	1 1/4"- 1 5/8" - 2"
Recess	#2 Phillips
Head	Bugle
Point	Sharp
Thread Type	Double (15 TPI)
Finish	Gray Phosphate

06B Series

#2 Phillips

Sharp

Sharp Point Drywall Screw

Self-Tapping screw for attaching Gypsum board to 25-20 gauge steel studs

APPLICATIONS

 Designed for attaching drywall to light gauge metal studs (21 – 36 mil)

FEATURES AND BENEFITS

- Phillips recess provides smooth engagement with moderate torque transmission
- Bugle head provides consistent penetration without damaging the paper
- Double threads provide improved holding power and thread-forming capability when driving into steel
- Ultra sharp point quickly penetrates steel reducing drive time
- Gray phosphate is an economical rust inhibiter meant for interior applications
- ICC approval information available in ESR-3558

INSTALLATION GUIDELINES

- Use a screwdriver with a precise depth-sensitive clutch and speeds of up to 5000 RPM
- Overdriving may cause a weak connection or thread strip-out of the steel
- The drive is finished when the screw is just below the work surface without tearing the paper
- Three full threads must extend past the base metal for an acceptable connection

06B Series

Sharp Point Drywall Screw
