**Rex Drive** 

Pan Framing

T4 Drill Point

Pan framing Head T4 Drill Point Screw Metal to metal fastener

#### **APPLICATIONS**

- Heavy steel framing (175 312 mil)
- Steel sheathing
- Structural steel decking
- Steel Trusses

#### **FEATURES AND BENEFITS**

- Our Rex drive recess provides smooth engagement with high torque transmitting capability reducing operator fatigue, and extending bit life
- Pan framing head with serrations is ideal for steel construction and ensures a tight connection over time
- 22 Threads per inch provides improved thread engagement in a wide variety of steel thicknesses
- Forged and hardened T4 drill point is designed to cut through up to 12ga steel
- Yellow zinc finish
- ICC approval information available in ESR-3558

### **INSTALLATION GUIDELINES**

- Use a screwdriver with a torque controlled or precise depth-sensitive clutch and speeds of up to 2500 RPM
- Overdriving may cause a weak connection or fastener failure
- Three full threads must extend past the base metal for an acceptable connection
