## SCREW SPECIFICATIONS

Screw Gauge	#7
Length	2"
Recess	#2 Phillips
Head	Bugle
Point	Sharp
Thread Type	Coarse Thread
Finish	Gray Phosphate

#2 Phillips

Bugle

Sharp

## Sharp Point Drywall Screw

Drywall to wood fastener

### APPLICATIONS

- Designed for attaching drywall to wood studs

### FEATURES AND BENEFITS

- Phillips recess provides smooth engagement with moderate torque transmission
- Bugle head provides consistent penetration without damaging the paper
- Coarse threads are ideal for use in wood connections
- Ultra sharp point quickly penetrates wood reducing drive time
- Gray phosphate is an economical rust inhibitor meant for interior applications only

### INSTALLATION GUIDELINES

- Use a screwdriver with a precise depth-sensitive clutch and speeds of up to 5000 RPM
- Overdriving may cause a weak connection
- The drive is finished when the screw is just below the work surface without tearing the paper
- 1" of penetration is suggested for drywall to wood applications
